

# Introduction to Sloan Touch-free Faucets

SLOAN®

# Presenters

Andrew Warnes  
Manager – Technical Training  
Sloan Valve Company  
Franklin Park, IL

John Lauer  
Director – Western Region Sales  
Sloan Valve Company  
Pasadena and Big Bear, CA

# Agenda

## This webinar is designed to:

- Present the Sloan go-to-market strategy
- Introduce the full line of Sloan automatic touch-free sensor faucets
- Review touch-free faucet designs options, features and benefits

## You will learn:

- How to make the best hygienic selections for commercial restrooms
- How to match the right faucet with your project budget

Dr. Anthony Fauci, Director, National Institute of Allergy and Infectious Diseases washes his hands in the White House using a [Sloan EBF85 Automatic Sensor Faucet](#)

# Product Positioning

# For your reference.....

## Sloan Webinar Series

- [Replacing Manual Faucets with Automatic Touch-free Sensor Faucets](#)
- [Converting Manual Flushometers to Touch-free Sensor Operation](#)
- [Focusing on Touch-free Hygiene in K-12 and Higher Education Facilities](#)
- [Sloan Sinks – Designing with Hygiene, Quality and Customization](#)
- [Commercial Restroom Recommendations for Return-to-Work & Facility Start-Up](#)

The screenshot displays the Sloan Webinar Series website. At the top, it says "Sloan Webinar Series" and "Training is important. Our webinar series will keep you in the know." Below this are two tabs: "UPCOMING WEBINARS" and "PAST WEBINARS". The main content area features a grid of six webinar cards, each with a representative image, a date, a title, a brief description, and a "Learn More" button.

Webinar Title	Date	Description
Royal vs. Sloan vs. Regal Flushometers	Thursday, 05/21/2020	Features and benefits of Sloan's three primary flushometer models.
Focusing on Touch-free Hygiene in K-12 and Higher Education Facilities	Thursday, 05/14/2020	How touch-free hygiene works for education facilities.
Battery Truths & Myths	Thursday, 05/07/2020	Learn how to evaluate battery-powered fixtures.
Piston vs Diaphragm Flushometers	Thursday, 04/23/2020	Learn the differences and benefits of piston and diaphragm.
Sloan Sinks – Designing with Hygiene, Quality and Customization	Thursday, 04/16/2020	Review best practices of hygienic sink design.
Upgrading Manual Flushometers to Touch-free Sensor Operation	Thursday, 04/09/2020	How touch-free can make for a more hygienic environment.

# Options for Key Component Access

Above Deck Access

- Service without having to work under the sink deck
- Spouts are larger and wider

Below Deck Access

- Spouts are thinner and sleeker controls can be mounted behind chases or in ceilings
- Service work is under the sink deck

# Options for Touch-Free Sensing Types

Infrared Sensor

- Senses the reflection of infrared light when a valid “target” is within range
- Range can be adjusted

Capacitance (Proximity) Sensor

- Senses the electrical field surrounding a valid “target” when within range
- Range can be adjusted
- **Cannot be used on metal sinks** (including enamel coated cast iron) or near large metal objects

# Options for Flow Rates and Spray Types

## Flow Rates

- 0.35 gpm / 1.3 Lpm
- **0.5 gpm / 1.9 Lpm**
- 1.0 gpm / 3.8 Lpm
- 1.5 gpm / 5.7 Lpm
- 2.2 gpm / 8.3 Lpm

# SF Summary

- A great general purpose faucet
- Not a lot of “bells and whistles”
- Ideal for TI’s (tenant improvements) and retrofits
- Perfect “stocking” faucet
- Matches (and exceeds) the sensor product offering of lesser brands

**Combining Economy with Quality**

# EBF/ETF Family

# EBF/ETF Family

- Most frequently specified
- Largest installed base
  - First ETF models released late 1980's
- Upgraded in 2018
  - Wireless connectivity
  - Quick-connect fittings
  - Ease of installation and maintenance
  - Merged EBF and ETF platforms
- Accepts 24VAC or 6VDC power
- 3-year warranty

# Optima Faucet Features

## Designed for fast installation and easier maintenance

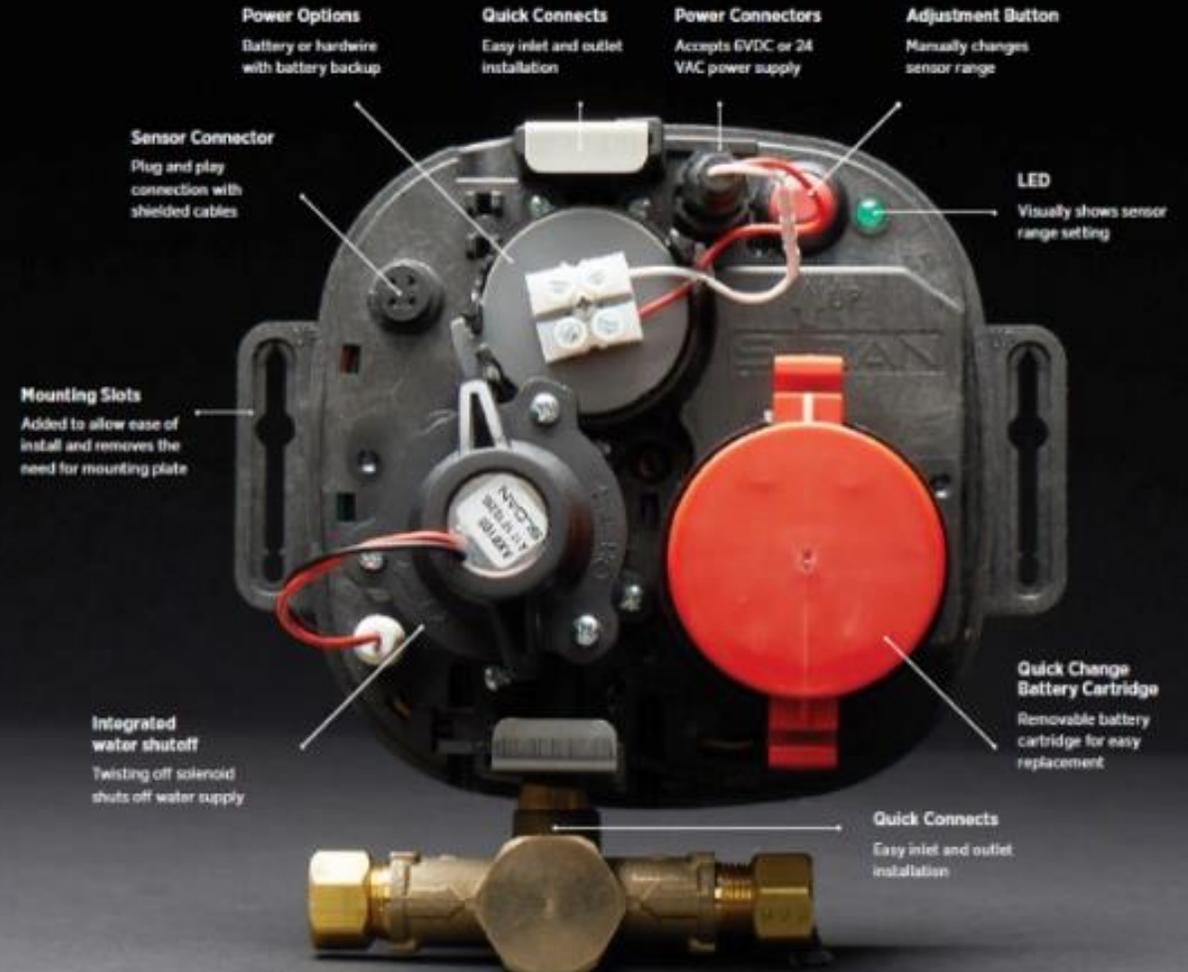

- The Optima® Control Box eliminates extraneous mounting plates and hardware to make installation quick and easy

## Additional Options

- Turbine with battery back-up
- 24VAC plug adapter, power harness assembly or box mount power supply
- Multi-unit gang adapter kit
- 110V or 230V/6VDC plug adapter
- Manual or thermostatic mixing valve

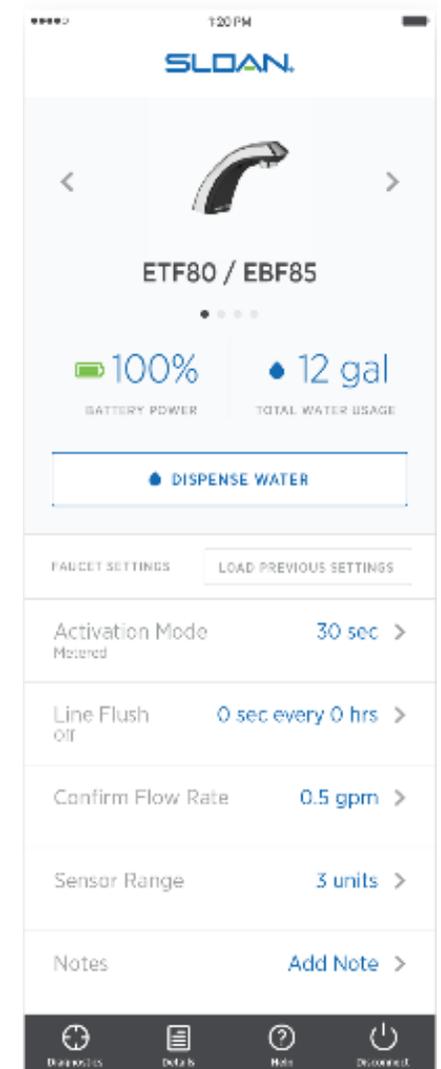

## One box with every option.

At first glance you'll see that new technology means fewer cords and fewer hoses. The same control unit can be powered by batteries, wall adapter or an optional hybrid energy turbine.

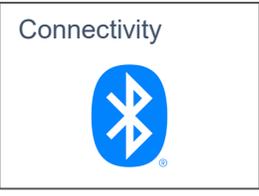

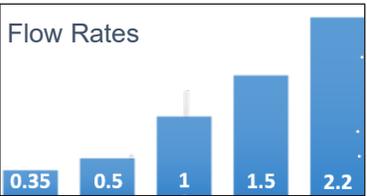

# SloanConnect App

- Adjust settings wirelessly (no deck disassembly or below-deck work)
- Select On-Demand or Metered activation
- Set faucet timeouts
- Activate Line Flush to clear supply lines or drains
- Measure and report water usage
- Check battery strength
- Identify your faucet and access technical data
- Generate and share diagnostic reports with Sloan
- Save notes about site or faucet

# EBF/ETF Summary

- The original Sloan Optima Faucet
- Has evolved over the past 30 years to meet the changes and challenges of the market
- ETF-660 taught people how to use sensor faucets
- Many great applications for these models
- Most widespread basis of design
- New BT platform
  - Sloan entry to the world of IoT
- Available with optional turbine power harvesting
- 3-year warranty

**A reliable work horse!**

# EAF Faucet Summary

- Above-deck installation & service
- “European” styling
- ISM mix feature
  - Great for offices/medical
- Lithium batteries – for size
- PVD special finishes
- Solar power harvesting
  - EAF-275 – one of Sloan’s most popular faucets
  - Solar – no moving parts

**Elegant and Hard Working**

Shown: EAF-250 Battery-powered Faucet and matching ESD-2000 Soap Dispenser with PVD Graphite Finish

# EFX (BASYS) Family

- Sleek modern design
- Easy above-deck access
- Flexible power supply options
- Interchangeable components for on-site upgrades
- Twist-off/shut-off solenoid
- ISM “Integrated Side Mixer”
- Programmable line flush
- CDC-compliant countdown model
- 3-year warranty

# Interchangeable Parts for Maximum Flexibility

**A Sloan BASYS Faucet can be converted from a standard version into a CDC compliant Countdown version on-site in less than 60 seconds.**

# Faucet “Crown” Options

**BOWED**

A clean, bowed crown is the standard for all models, providing an uninterrupted appearance.

**SOLAR**

Solar panels embedded in the crown draw power from artificial and natural light sources.

**COUNTDOWN**

Both solar panels and LCD display are embedded into a single crown.

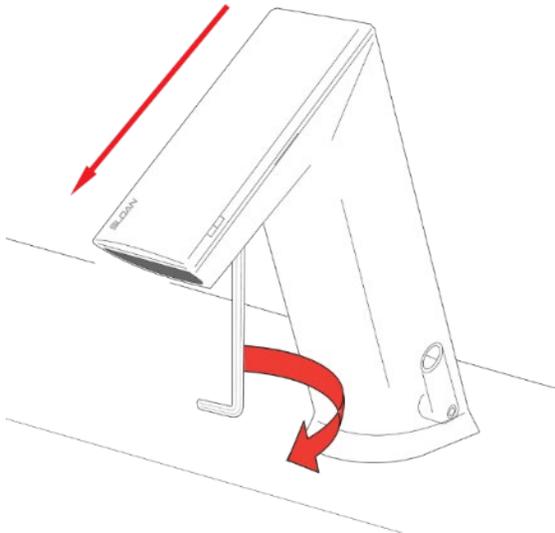

## Compliance Focus

- Water temperature
- Compliant scrub time
- Ability to count down

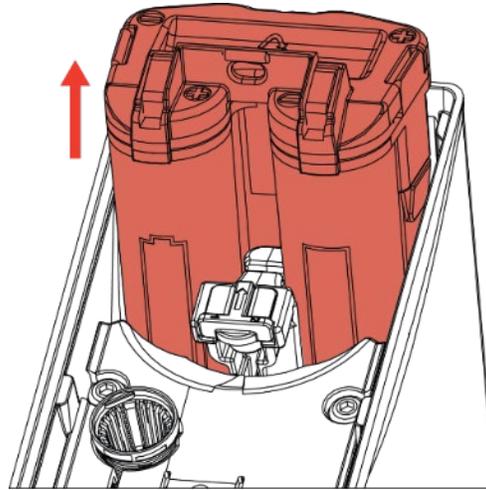

**Modify in under 60 seconds!**

Note: LCD readout has been color enhanced for demonstration purposes. Actual readout color is black on grey.

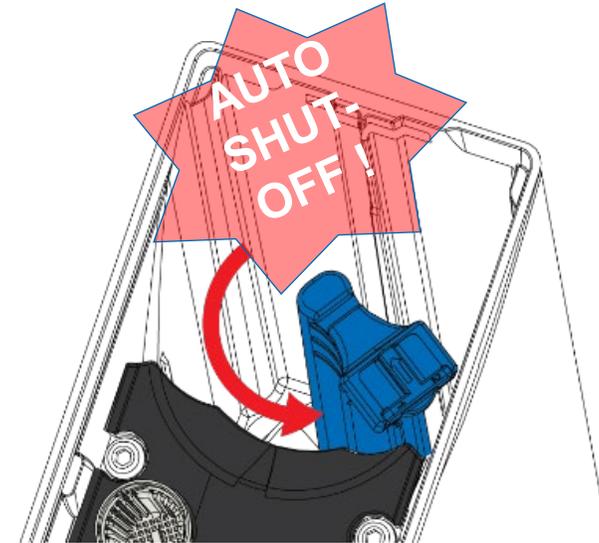

# Service is Exceptionally Easy

A 2.5 mm Hex Key (included) is the only tool required.

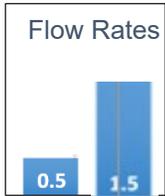

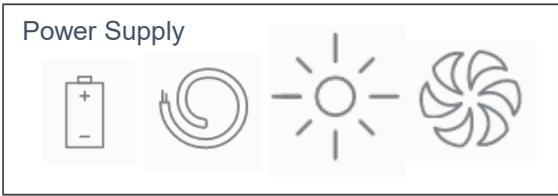

The self-contained battery pack lifts out. Uses 4 common, inexpensive, off-the-shelf, AA alkaline batteries.

Rotating the solenoid turns off the water! No need to access control stops below deck!

**All major components are accessible from “above the deck”**

# Sink Components for Hygiene – Soap Dispensers

- Faucet-matching soap dispenser pairings
- Soap system options
  - Open systems – top fill (pour)
  - Closed systems – new bottle
- CDC, WHO, and Health Canada have issued guidelines against refillable, bulk soap dispensers

# Certifications & Regulatory

## COMPLIANCES & CERTIFICATIONS

- ASME A112.18.1/CSAB125.1
- cUPC Listed
- cUPC Low Low Lead Listed
- CEC Compliant
- CalGreen Compliant
- ADA Compliant
- Satisfies LEED Credits
  
- Note: WaterSense does not apply to public lavatory faucets

# Sloan Faucet Finder

- Browse automatic sensor faucets by style, features, options, or certifications with the [Sloan Faucet Finder](#). Find your faucet, and easily drill down to individual spec sheets.

The image shows a screenshot of the Sloan Faucet Finder interface, which is a web-based tool for selecting faucets. It is organized into several filter panels:

- Spout Design:** A grid of 20 different faucet spout styles.
- Finish:** A selection of material finishes: Polished Chrome, Brushed Stainless, Brushed Nickel, Graphite, and Polished Brass.
- Power Type:** Four icons representing different power options: battery-powered, solar, and two types of solar panel configurations.
- Flow Rate:** A toggle switch between gpm and Lpm, with five numerical options: 0.35, 0.5, 1.0, 1.5, and 2.2.
- Mixer:** A selection of mixer types, including a standard mixer, a cross-handle mixer, and a single-lever mixer.
- Product Line:** Three product line options: BASYS\*, Sloan\*, and Optima\*.
- Trim Plate (in):** Two options: 4 and 8.
- Mounting Type:** Two options: Deck and Wall.
- Compliances:** A list of 14 certification checkboxes, including ADA Compliant, ASME A112.18.1 Compliant, BAA Compliant, BREEAM Materials Credit, BREEAM Water Credit, CEC Compliant, CalGreen Compliant, Carbon Neutral, EPD, GPC 0.25 or less, Green Globes Materials & Resources Credit, Green Globes Water Credit, HPD, LEED Materials & Resources EPD Credit, LEED Materials & Resources HPD Credit, and LEED V4 Water Efficiency Credit.
