

Sloan Sensor Faucets

Combining Technology with Quality and Efficiency

Sloan's Deluxe series of touch-free sensor faucets perfectly blends contemporary design and IR-based activation. The rugged and dependable faucets deliver reliability and longevity powered by Sloan's high-performance solenoid.

All Sloan sensor faucets are made using the highest grade material for quality and durability. Sloan is the leading global manufacturer of commercial plumbing systems with over 50 years' experience innovating touch-free sensor restroom products.

Features

- Adjustable infrared sensor range
- 36" (914 mm) long sensor cable
- 24" (610 mm) long flex hose
- Filtered solenoid valve with serviceable strainer filter
- Includes four (4) AA-size batteries
- Includes mounting hardware
- 5 year limited warranty

Project types

- ✓ Healthcare Facilities
- ✓ Schools & Universities
- ✓ Offices
- ✓ Airports

Bring the convenience of touch-free sensor activation to any project with Sloan sensor faucets.

✓ Hygienic

Stop the spread of germs with sensor-activated, touch-free handwashing.

✓ Simple

The elegant one-piece design efficiently delivers and saves water.

✓ Durable

Manufacturing processes make our products sustainable and reliable.

✓ Intelligent

Sloan patented solenoid technology ensures precise operation every single time.

Power Options

Battery (DC)

A good option for retrofit environments or installations where hardwiring is not an option.

Hardwired with Battery Backup (AC/DC)

Ideal for new construction because it eliminates regular use of disposable batteries.

Flow Rates

- 1.3 Lpm (0.35 gpm)
- 1.9 Lpm (0.5 gpm)

Choose the right faucet for your facility.

SF-2400 Hardwired
SF-2450 Battery

Sloan also offers alternative sensor faucets to meet your needs.

BASYS® Faucets

The ultimate versatility to meet the needs of any application or environment — from aesthetics to sensor type and flow rate.

Optima® Faucets

Ideal for applications that require a reliable sensor activated faucet and efficient water savings.
