

# product pipeline

## A MOWER Exmark

The Commercial 30 X-Series walk-behind mower features pivoting front wheels for maneuverability and a 30-inch, high-strength, steel cutting deck. It can cut nearly 1 acre per hour and offers engines from Kawasaki or Kohler. A heavy-duty wet clutch transmission, 1-gallon fuel tank, and protective front bumper make it useful for commercial mowing conditions.

## B FIRE SAFETY Bellofram

The 7829 Medium Density Flame Retardant Foam offers thermal conductivity, dielectric strength and compression deflection while being lighter than its competitors. Useful for electronic enclosures, HVAC seals, LED gaskets and electric vehicle battery seals, it meets strict safety standards. It is available in sheets up to 2 inches thick and 36 inches wide.

## C LIGHTING Barron Lighting Group

The RCL-CP Round LED Canopy/Garage Luminaire is designed for commercial and industrial spaces. With field-switchable wattage (21 watts to 70 watts) and a correlated color temperature of 3,000–5,000K, it delivers up to 10,623 lumens and 155 lumens per watt. Features include a domed Fresnel lens, occupancy/daylight sensors, bluetooth controls and emergency backup. IP65 and IK08 rated, the compact product is useful for garages, walkways, schools and other facilities.

## D CHANGING TABLE Bradley Co.

The Universal Changing Table has a 500-pound weight capacity and an adjustable height of 16-39 inches. It also offers safe, hygienic support for individuals with mobility challenges and their caregivers. ADA-compliant and space-efficient, it features smooth, motorized operation, obstruction detection, and simple-to-clean, bacteria-resistant surfaces. Made in the United States with durable stainless steel, it is designed for use in airports, healthcare facilities, and other public venues.

## E BRUSH CUTTER Diamond Mowers

The heavy-duty streamline digital signage stand has slim, compact frames that save space yet provide the strength to support large flat-panel monitors, televisions, digital whiteboards and interactive touchscreens up to 220 pounds. The streamline stand has leveling feet and accommodates screens from 37 to 80 inches in a landscape orientation. It also has a shelf that holds audio/video equipment.

## F HEAT PUMP Fujitsu

The AIRSTAGE Orion XLTH+ is a cold-climate, single-zone, mini-split system that delivers full heating capacity at minus 15 degrees Fahrenheit and 90 percent at minus 22 degrees Fahrenheit, with efficiency up to 33.5 SEER2. The compact heat pump features ProCore coils, a base pan heater and built-in Wi-Fi for remote control. Available in 9,000-15,000 BTU/h, it is designed to integrate with building automation systems for year-round comfort in extreme conditions.

## G CMMS FSI

ServiceNow helps organizations automate management workflows across departments in healthcare facilities. When a user submits an issue via the incident or case module, the data pushes to the CMMS platform. It automatically triggers a work order, and the system can assign and route it to the technician when it comes in.

## H ULTRASONIC IMAGER FLIR

The Si1-LD ultrasonic imager delivers precise leak detection with enhanced imaging sensitivity. Featuring a 96-microphone array, it detects and measures compressed air and vacuum leaks from up to 130 meters. The product also features a 12 megapixel camera, bandpass filtering, and AI-powered, one-handed operation. Real-time quantification helps prioritize repairs, while wireless data transfer enables reporting.

## I TOOL STORAGE KNIPEX

The tool tote is designed for electricians, HVAC technicians and plumbers. With a water-resistant, soft bottom, 33-pound capacity and 25 pockets, it offers tool access and organized storage. Features include a tape measure clip, chrome tape thong, padded strap and D-ring. Other tool storage includes a three-pack of stand-up tool bags with color-coded loops and a two-pack of zipper tool bags for tools up to 12 inches. All totes are made of polyester.

## J MIRRORS Sloan

Sloan custom LED and framed mirrors meet unique project needs with sizes up to 42 inches by 84 inches, multiple LED color temperatures and various shapes and finishes to match any aesthetic. Designed for flexibility and durability, mirrors can include frosting designs and vandal-resistant film.

## K BACKPACK BLOWERS Husqvarna

The 590BTS and 590BFS Backpack Blowers are designed to deliver power with 56 Newtons of blow force and 1,245 cubic feet per minute. Powered by a 79.4 cc X-TORQ engine, they feature AutoTune, an easy-start button, and ergonomic comfort features like a padded harness and LowVib tech. With a large fuel tank, cruise control and two throttle options, they can be used all day.

## L WATER HEATERS Noritz

The Commercial Rack Kit is available in two floor-standing configurations: the CMK-BB2 for handling two NCC199CDV units and the CMK-BB4 for mounting three or four NCC199CDV units. The same base that handles two back-to-back tankless units can expand to accommodate three or four units. This telescoping capability can handle even larger installations, depending on the required number of water heaters.
